INVEST IN THIS UNMATCHED INNOVATION WITH BOBALONG INC.

HOLDS UP TO FOUR RODS

The Rod Pod holds multiple fishing rods at the same time, freeing your hands to focus on other important tasks, such as baiting hooks or reeling in fish. Instant access to rod after fish bite so you can catch more with less effort.

ROD ANGLE ADJUSTMENTS

Adjustable rod angle for optimized fishing experience and conditions. Versatile use on saltwater beaches, lake shores, rivers, piers, boats, and ice fishing.

INSTANT ACCESS TO YOUR CATCH

When you have multiple rods in use at the same time, it can be challenging to keep track of which one has a fish on the line. With the Rod Pod, however, you can quickly identify which rod has a fish on it and easily grab it for reeling in your catch.

MULTI-PURPOSE

It goes from rod storage tote in your garage to rod fishing with hinges that lock securely in place within seconds. The secure hinges of the Rod Pod lock in place, providing a stable and secure platform for your rods while fishing. This design feature helps to minimize the risk of accidental dislodging or dropping of your rods, so you can fish with confidence.

QUALITY DESIGN

Additional features include 12-volt led strip lighting for night fishing, which makes it easy to see your rods and keep track of your fishing gear so that you can enjoy your nighttime fishing trips. The cushioned rod slots protect the rod from damage, and made of rust-resistant materials.

EXCLUSIVE ADVANTAGE

With no direct competitors in the market, you can offer a truly innovative solution for anglers looking for a convenient and reliable way to store and transport their fishing gear. This gives you the power to control the supply and distribution of the product.
